BRAND QUALITY WITHOUT THE BRAND

Want the best multisport range on the market?

Well this year it's bigger and better than ever before.

It's fully coordinated with season on season continuity across all sizes, it's UK-supplied and fully stock supported.

It's reliable, durable and innovative. Attention to detail is a top priority, from stitching and seams to unique design touches and new product development.

Specifically, it offers brands and resellers a credible, premium quality alternative to high profile teamsport brands.

A highly experienced, UK based team of specialists, ensure all garments meet the increasing demand for 'fit for purpose' trainingwear. From professional, corporate and educational team sports to grass roots juniors and individuals, the range is designed and developed to provide technical and functional performance that goes the extra mile, not to mention the added style and value.

Want true brand quality without the brand? Ask for a sample and see the quality for yourself.

A CREDIBLE ALTERNATIVE TO FAMOUS
OR SPECIALIST TEAM BRANDS

KEY MULTI SPORT MARKETS

➤ TEAMWEAR SUPPLIERS

With a wide range of coordinated styles and layers, best in class quality fabrics with fit for purpose technical specifications, this range provides a highly credible alternative to traditional sports brands.

Unbranded garments give resellers the chance to offer embroidery to their customers and add their own brand logo.

The range provides everything for the modern multisport team or club whilst offering great quality and value to the reseller.

➤ MULTISPORT AND SPORTS BRANDS

For unrivalled quality, tried and tested durability and innovative design, there isn't a more reliable 'unbranded' brand on the market.

For small to medium multisport and sport specific brands, this range offers famous sports brand quality without the price tag.

Backed by a fast, efficient, UK-based stock service with sizes from age 6 to XXXL available all year round.

➤ SCHOOLWEAR RESELLERS

To meet the growing demand for high spec sportswear in the educational sector; consistency, continuity and innovation are key considerations when developing the range.

Quality assurance standards ensure all garments fit and function and stand up to expected wear and tear. Coordinated, available from UK-stock, fast turnaround times and year-on-year style longevity mean this is a premium quality range resellers can trust and be proud of.

FIT FOR PURPOSE

Quality you can see, feel and trust

> GARMENT QUALITY

A proven quality procedure is integral to manufacturing suitable garments which fit and function according to their intended use, giving 'the buyer' confidence in the product. Quality is rigorously controlled at all stages.

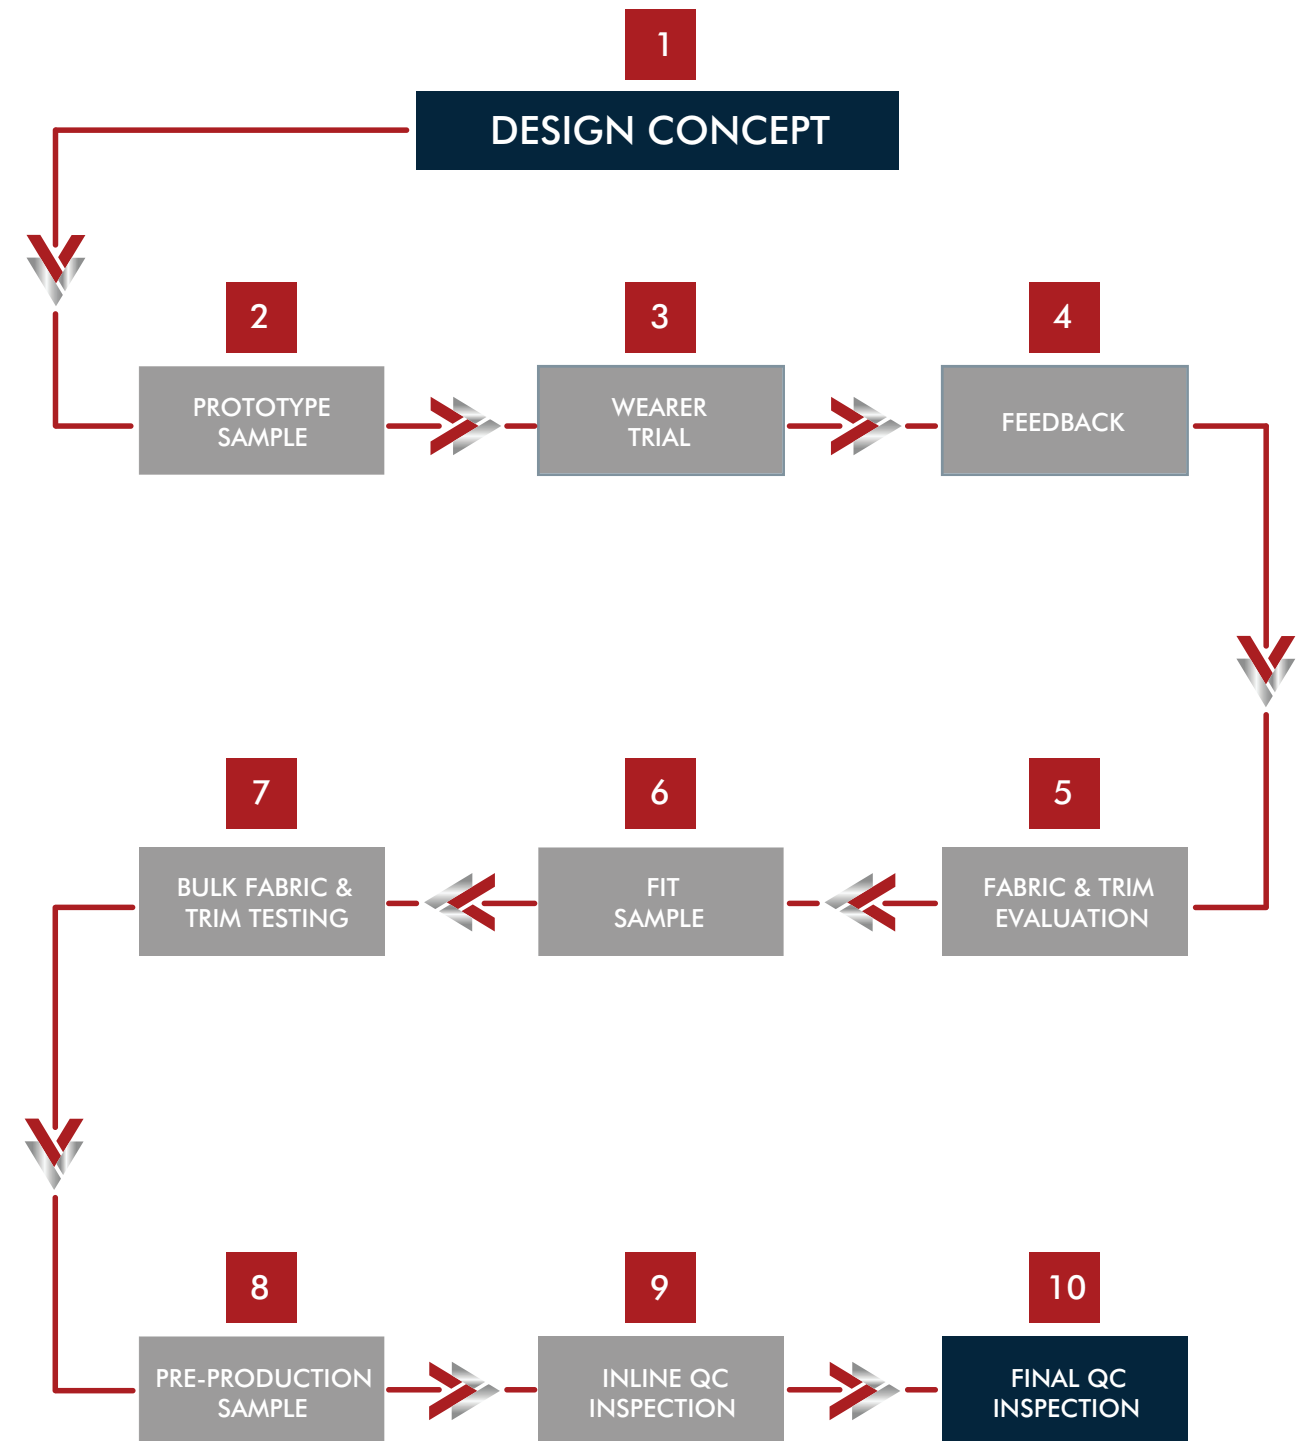

> DESIGNED IN THE UK

Designed and developed in the UK and manufactured by hand picked specialist partners. Close attention is paid to reinforcing garments in all the right places and specifying suitable fabrics in order to reduce returns.

> INDEPENDENTLY ASSESSED

All approved factories have in-house, quality control procedures. In addition, a team of independent experts are trained to work exclusively on this range, ensuring every garment detail is monitored and tested to the highest standard.

QUALITY ASSURANCE STEP BY STEP

FIT FOR YOU

> RESELLER EXCLUSIVITY

'Brand quality without the brand' gives resellers an exclusive opportunity to offer the best in class. This range is available to the reseller only and not the end user team/club/school.

> ADDED VALUE

Owing to the exceptional quality and flexibility of the range and service, resellers benefit from highly competitive margins versus offering mainstream brands to the end user.

> MULTISPORT

Premium quality products ideally suited for all multisport and specialist team brands, embroiderers, printers, school outfitters, corporate and eventwear resellers.

> FIT FOR PURPOSE

Manufactured to a proven standard and independently tested to ensure every garment functions and fits to withstand regular wash and wear, ensuring genuine durable, 'fit for purpose' clothing.

> FULLY COORDINATED

All styles are designed and developed to function and fit but also to project a professional, smart, stylish team image. Mix and match these fully coordinated, complimentary styles and colours.

> QUALITY ASSURED

Quality assurance you can see, feel and trust. Rigorous quality control procedures ensure all garments are developed, tested and finished to the highest possible standards.

> HIGH QUALITY IMAGES

A comprehensive set of detailed CAD images and on location photographic images are available on request to assist you with online sales or brochure development.

> PRODUCT CONTINUITY

Clubs, teams and schools need reliable continuity for their clothing. This range enables you to offer continuity season on season, in the same styles for all ages.

> UK STOCK

A fast, efficient, UK-based stock service, offering a full range of sizes from age 6 to XXXL, which are available all year round.

> MARKETING SUPPORT

CAD imagery for the entire range is made available to resellers for use in end user presentations and marketing activities. Simply select products and colours and add your logo.

BENEFITS

All manufacturers associated with the production of these products subscribe to a range of recognised ethical trading initiatives, such as BSCI (Business Social Compliance Initiative) and recognise their social and corporate responsibilities to their employees, buyers and end users.

Garments are produced and delivered under conditions that do not abuse or exploit any persons or the environment.

These considerations form part of any evaluation and selection criteria for this range. In order to support and maintain such responsibilities, all manufacturers are visited on a regular basis. This also helps to ensure that all employers within the factories are able to meet the key principles relating to working hours, forced labour, and the overall working environment, including accommodation.

INDEPENDENTLY TESTED TO RECOGNISED
INTERNATIONAL STANDARDS

ALL FACTORIES ARE
FULLY COMPLIANT

OEKO-TEX STANDARD 100

The Oeko-tex standard is an independent, testing and certification system for raw, semi-finished and finished textile products such as; yarns, raw dyed fabrics and knits and ready made articles of various types.

CRITERIA:

Testing for harmful substances includes:

- Illegal substances
- Legally regulated substances
- Known harmful chemicals (*unregulated*)
- Parameters of healthcare

In their entirety, the requirements of Oeko-tex exceed existing legislation. The Oeko-tex criteria helps highlight the additional benefits of safety tested textiles.

Please note, not all trims and components in these garments carry the Oeko-tex standard. However, any such elements are tested in accordance with Oeko-tex whenever possible as part of an ongoing commitment to improving both environmental and ethical practices throughout the supply chain.

ITS INTERTEK

In a competitive garment industry full of complex regulations, it is imperative for manufacturers, retailers, importers and distributors to proactively evaluate fabrics and trims to ensure they are producing the highest quality.

The fabric and trims utilised in this range are tested exclusively by Intertek to international standards.

Intertek is a leading quality solutions provider to industries worldwide. From auditing and inspection, to testing, training, advisory, quality assurance and

certification. For more information, visit www.intertek.com.

Some of the essential tests Intertek performs on fabric:

- Staining and shrinkage
- Tear strength
- Pilling/snagging resistance
- Wet/dry rub fastness
- Spirality
- Seam strength (as required)
- Stretch and recovery

TECHNICAL PERFORMANCE GUIDE

The exacting quality assurance procedures mean all garments are delivered to the highest standard in design, detail and durability.

Frequent wash and wear, combined with an increasingly knowledgeable consumer, means that garments are simply expected to perform, look great and last longer.

Every style comes with it's own technical 'fit for purpose' performance guides.
